

TLC on theWorld Wide Web

Tender Learning Care

1818 Lake Boulevard

Davis, California 95616

Dear Parents;

May 12, 1999

Our web page is up and operating! The address is: <http://www.tender-learning-care.com>

All of the classroom web cameras are password protected and we have received permission from the currently enrolled parents to upload the images to the internet. The cameras allow parents who have access to a computer connected to the internet to see activities in the TLC classrooms "live" through use of the password.

Cameras are live from ~8:00 AM until ~5:00 PM each day, Monday through Friday. We also have archived photos and videos, to view when the cameras are not live. All the photos are password protected, except for occasional pictures, selected by the Director. The password will be changed approximately every three months; please help us keep it secure.

The form below, for new parents, describes the procedures for web cam use and requests parental concurrence.

Shirley Huddleson
Owner/Director

I understand and agree with the following procedure:

- Tender Learning Care is using web cameras in each classroom to upload pictures of children taken during the day to the TLC web site, for the use of parents enrolled at TLC.
- Access to these pictures is limited to parents with children currently enrolled at TLC, through the use of a password, changed every three months.
- TLC provides the passwords only to parents with children currently enrolled at TLC. Parents may provide the password to other family members with concurrence from the TLC Director.
- Occasional pictures selected by the Director are published on the publicly available portions of the TLC web site. The Yard web cam is also available as a "visitor" camera, with a smaller image size.

My signature below indicates my acceptance of the procedure described above.
